Columbia Law School

Jerome Greene Hall, room 104
435 West 116th Street (at Amsterdam Avenue)
New York, NY 10027
NEAREST SUBWAY: 116th Street stop on #1 line.

Offshore Wind In New York: What's Next? brings together industry leaders, advocates, policy makers and project opponents to examine leading edge developments and prospects for the northeast. As the cost of producing wind turbines has plunged 35% over the last decade, public policies in coastal states like New York have made a commitment to advancing clean energy sources like offshore wind, and industry is stepping up with money and know-how. At the same time, federal energy policy has veered sharply toward fossil fuels. The challenge of siting offshore wind farms in light of concerns raised by the Atlantic coast fishing industry and localities that rely on it cannot not be ignored.

Welcome

Nancy Anderson, *The Sallan Foundation*

Keynote speaker

Michael B. Gerrard, *Professor and Director, Sabin Center for Climate Change Law, Columbia Law School*

Moderator

Amy Harder, *Axios*

Panelists

Doreen Harris, *New York State Energy Research and Development Authority*

Anne Reynolds, *Alliance for Clean Energy*
